

FoodMaps Useability Test Instructions

Thanks for participating in this test!

In order to conduct the test please follow these instructions:

1. Download the zip file that I have sent to you on Microsoft teams, and run the react project that it contains.
2. Please record your screen and perform the followings tasks. If comfortable, also record your thoughts as you work through the tasks:
 - a. Task Scenario 1 - Click on an event and view it in detailed view. Repeat this for 3 separate events.
 - b. Task Scenario 2 - Click on an event and click “Interested”, and then go to the “My Events” tab and confirm that the event is there.
 - c. Delete an event from the “Interested” tab
3. Send me your video recording via Microsoft Teams, and also answer the following questions in the chat:
 - a. What parts of the interface were the most/least intuitive?
 - b. Was the layout good for the purpose of the application
 - c. Was there anything you thought was particularly confusing about the application?
